The maximum compensation for a single claim for all persons insured by the Company in all of its policies is USD 1,000,000 regardless of the number of Insured Persons affected.

Should there be no designated Beneficiary upon the death of the Insured, nor rules to determine one, the insured sum shall go on to form part of the deceased Insured's estate. Where there are several Beneficiaries, save some agreement to the contrary, payment of the sum insured shall be divided equally between them, or in proportion to their share of the estate, where those designated are the legal heirs. Save agreement to the contrary, any part not acquired by a Beneficiary shall go towards that of the others. In the event that any of the Beneficiaries should be a willful causer of the accident, any designation in favor of the same shall be deemed null and void and that corresponding part shall go towards that of the other Beneficiaries or, where applicable, shall form part of the deceased Insured's estate.

Where, prior to the death, the Company should have paid an indemnity for disablement, as a result of the same accident and this had occurred less than one year beforehand, it shall indemnify the

difference between the amount paid and the insured sum in the event of death. Should the indemnity already paid out be greater, the Company shall not lay claim to the difference.

6.2. Permanent accidental disability

For the purposes of the policy, disablement shall be taken to mean the anatomic loss or lack of functionality of limbs and organs, as a consequence of bodily injuries that stem from an accident suffered while the Insured was away on some trip.

The amount of the indemnity shall be determined by applying to the insured sum – duly established in the Specific or Special Conditions – the percentages set forth in the injury table of this guarantee. In calculating the said percentages, neither the Insured's profession or age, nor any other factor alien to the scale, shall be considered.

Applying the table of injuries shall be governed by the following principles:

- a) Those types of disablement not expressly specified shall be indemnified by analogy with other cases that do appear therein.
- b) In the event that, prior to the accident, some member or organ suffered amputations or functional limitations, the percentage of the indemnity shall be the difference between the pre-existing disablement and that present after the accident.
- c) When the injuries affect the non-dominant upper limb, the left of a right-handed person or vice versa, the indemnity percentages for the same shall be reduced by 15 per cent.
- d) Partial limitations and anatomic losses shall be indemnified proportionally, with respect to the total loss of the affected limb or organ. The total lack of functionality of some limb or organ shall be considered as total loss thereof.
- e) The sum of diverse partial percentages related to the same limb or organ shall not exceed the percentage of indemnity established for the total loss thereof.

The accumulation of all the disablement percentages arising from the same accident shall not give rise to an indemnity of over 100 per cent.

Recognizing the right to this guarantee corresponds exclusively to the Company, which shall verify the degree of disability suffered by the Insured. To this end, following examination by a doctor who declares the condition to be definitive, the Company shall assess the Insured's physical condition using the medical reports which confirm the disability in question and which the Insured undertakes to furnish when required.

Where twelve months pass from the date of the accident, without the Company being able to assess the Insured's physical condition, the latter may request a further period of up to twelve months more. Following this period, the Company shall determine whether or not a disability exists and, if so, what degree of disability shall be deemed definitive for the purposes of the policy. Should the Insured not accept the assessment of their condition by the Company, they may call upon the mediation services of an expert appraiser, as provided for under Article 38 of the Insurance Contract Act. Each party shall satisfy

the fees of its own appraiser. Those of the third appraiser and all other expenses arising from the appraisal evaluation shall be divided equally between the Insured and the Company. However, should either of the parties have made it necessary to seek such mediation, due to having made a manifestly disproportionate assessment of the injuries, that party shall be solely liable for the said expenses.
